

Plant List

Laser Cutting

Bystronic CNC laser cutting system

4.4kW, 3000x1500x20mm max. sheet size

CNC Punching

Pullmax 5000 ETM

2500x1250x6mm max. sheet, Auto sheet loading, Auto part picking

CNC Punching

Pullmax 126FC

2500x1250x12mm max. sheet, Auto sheet loading

Robotic Bending Cell

Kuka robot with Colgar press brake

16kg max. piece weight, 2.1m / 75 tonne press

Bending

Ursviken press brake

3.0m / 100 tonne press, DNC control

Bending

Ursviken press brake

3.0m / 100 tonne press, DNC control

Bending

Ursviken press brake

2.6m / 64 tonne press, DNC control

Bending

Promecam press brake

2.0m / 50 tonne press, DNC control

Bending

Promecam press brake

1.25m / 25 tonne press, DNC control

Bending

Promecam press brake

1.25m / 25 tonne press, DNC control

Bending

Promecam press brake

1.25m / 25 tonne press, DNC control

Bending

Promecam press brake

1.25m / 25 tonne press, DNC control

Bending

Promecam press brake

1.25m / 25 tonne press, DNC control

Bending

Promecam press brake

1.25m / 25 tonne press, DNC control

Machining

Various

Milling, Turning, Grinding

Auxiliary Plant

Various

MIG & TIG welding, Spot welding, Haeger inserting, Kuhlmeier graining

Laser Inspection

Virtek Laser QC

CNC laser inspection system

3D Inspection

Mitutoyo Euro-M544

CNC 3-axis check centre

Paint Plant

Various

Conveyorized pre-treatment, powder coating, and convection curing system. Max work size 3000x1200x900mm (larger if offline), skilled manual powder application.
